

Graduate Minor in Business Administration

The Ivy College of Business offers a business administration minor to students with majors outside the college. In order to obtain a graduate minor in business administration at Iowa State University, a student must complete **eighteen** credit hours of the required core courses for the major in business administration. A student who wishes to minor in business administration must have full admission status in his/her respective graduate program and must be in good academic standing (graduate transcript required).

A student must submit to the College of Business Graduate Programs Office a letter of support from his/her major professor along with a statement of purpose providing the rationale for pursuing the business administration minor.

The minor must be listed on all academic plan materials and examination reports and on the completion/graduation application. The associate dean for graduate programs as major professor for MBA students will normally serve as the minor representative on the student's academic plan/committee.

Students pursuing a minor in business administration are strongly encouraged to follow the prescribed sequence of required courses below and complete the minor in two semesters.

Applications for the graduate minor in business administration are accepted for the online and hybrid programs only and can be accepted for fall or spring entry. Admission is approved only if space allows in the program. Ivy Graduate Students are not eligible to earn the graduate minor in business administration. Contact busgrad@iastate.edu for more information.
